

DECLARATION

As the below-named inventors, we declare that:

Our residences, post office addresses, and citizenships are as stated below under our names.

We believe we are the original, first and joint inventors of the subject matter claimed and for which a patent is sought on the invention entitled "DRY CONTACT ASSEMBLIES, METHODS FOR MAKING DRY CONTACT ASSEMBLIES, AND PLATING MACHINES WITH DRY CONTACT ASSEMBLIES FOR PLATING MICROELECTRONIC WORKPIECES," the specification of which was filed in the U.S. Patent and Trademark Office on March 30, 2001, and assigned Application Serial No. 09/823,948 (Attorney Docket No. 291958101US); and that this application in part discloses and claims subject matter disclosed in our earlier-filed Application No. 09/717,927, which was filed in the United States Patent and Trademark Office on November 20, 2000; which is a continuation-in-part of International Application No. PCT/US99/15847, the specification of which was filed in English on July 9, 1999; which claims priority from U.S. Provisional Application No. 60/119,668, filed February 11, 1999, U.S. Provisional Application No. 60/112,232, filed December 7, 1998, and U.S. Patent Application No. 09/113,723, filed July 10, 1998, and issued as U.S. Patent No. 6,080,291.

We have reviewed and understand the contents of the above-entitled specification, including the claims, as amended by any amendment specifically referred to above.

We acknowledge our duty to disclose information which is material to the patentability of this application in accordance with 37 C.F.R. § 1.56(a), including material information which became available between the filing date of the prior application and the filing date of this application.

We further declare that all statements made herein of our own knowledge are true and that all statements made on information and belief are believed to be true; and further, that these statements were made with the knowledge that the making of willfully false statements and the like is punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and may jeopardize the validity of any patent issuing from this patent application.
